9. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- Great
- I think when she did solve the problems on the board it was helpful, I liked being able to try them myself at first and then be shown the way, or offered new insight or help, but sometimes we just did the problems independently with no guidance on the board, she would come around and help each student if they needed it but realistically I think it would've helped everyone much more to do all the problems on the board after giving us the chance to solve them
- In discussions, Poornima always goes around to help students and make sure they understand the materials, and is in general very approachable. She was a very good TA for this class, and I enjoyed having her as my TA for discussion sections, because it was clear she really wanted to help students understand the material and succeed in the class.
- Really nice TA
- She didn't answer student's email with academic questions.
- She patiently answered all of my questions in the class and guided me to solve the answer step by step.
- She was the biggest factor in me understanding the course material.
- That's ok
